

Think Pink

October is National Breast Cancer Awareness Month

Support the Cause with Art

Odds are that you or someone you know has somehow been impacted by breast cancer. Show your support by wearing pink, giving a special gift, or making art to donate to a local organization in support of breast cancer research or treatment. You can make a difference.

Stained Glass

- **Suncatcher**

Plate Awareness Ribbon Bevel Cluster #443140 with a layer of pink glass for a simple project. Customize your art with words cut from DicroSlide™ or painted details with Pebeo oven-bake paints.

Delphi Tip: Bake DicroSlide™ on glass in your oven at 375° for 15 minutes on background glass, then plate between layers of glass to get dazzling dichroic details without a kiln.

- **“In Honor Of” Panel**

Make an inspirational panel with the pattern from "Basically Bevels 2" book #6857 and a 4" x 6" bevel. Add a special touch with engraved verse bevels #N803C, #NE803 or customize the design by painting or engraving your own design on clear bevel #5250.

Fusing

- **Fused Cuff Bracelet**

Create fused bracelets. Find everything to get started including instruction with Fused Glass Bracelet Kits available for 90 COE #6952 or 96 COE #X6952. To create a special design, consider using Glassline pens, DicroSlide™, or making your own frameworked embellishments as shown at right.

Delphi Tip: Use a strip of glass or rod (the same COE as your bracelet), heat it with a bead making torch and pull it to the desired width, then form an awareness ribbon. Cool it in an annealing oven or between layers of fiber blanket, then fuse this to your bracelet before bending.

- **Other Project Ideas:**

- Use a stained glass pattern to make a panel, plate or tile.
- Create a cast glass awareness ribbon with mold #81002 as a paperweight or to embellish another design.
