

Step-by-Step Mixing Instructions

(Please read all directions before beginning)

MOLD PREPARATION:

1. Cut contact paper the size of the mold.
2. Place glass face down on the sticky side of the contact paper and press into place.
3. Place contact paper with the glass into mold, sticky side up.

MIXING:

1. Determine the number of cups of outdoor cement and fluid ounces of water needed (refer to Measurement Chart) for your size mold.
2. Wearing a dust mask and safety glasses, add cement to a bucket. Pour water into mixing bucket, stirring as you add to the cement. Liquid measurements are approximate. Should your mixture be dry, continue to add water, 2 ounces at a time.
3. Mix vigorously until smooth and all lumps are removed (consistency should be equal to pancake batter).
Mosaic Tip: Wear a glove and mix with a gloved hand, breaking apart any lumps as you mix.
4. Place mold on a flat level surface where it will not be moved while drying. Slowly and evenly pour cement into mold. No reinforcement is needed. Fill approximately 7/8 full.
5. Lightly tap the sides of the mold for 1-2 minutes to release any air bubbles. **DO NOT MOVE MOLD WHILE CEMENT IS DRYING.**
6. Allow cement to set-up in mold for 12 hours before removing from mold. Place stone on several layers of newspaper. Peel off contact paper and clean off any smudged cement on glass with a wet sponge or a green scrubby. Continue drying for an additional 12 hours.
7. Allow stone to fully cure indoors for 28 days before placing outdoors.
8. Jennifer's Mosaics™ Outdoor Cement is designed for outdoor use. A waterproof sealant may be applied. If used, apply cement sealant after the stone has cured and coat entire stone. Remove sealant from glass before it dries. Check annually and reapply as needed.

Measurement Chart

Mold Shapes	Mosaic Cement	Water
6" House Border Stone	5 cups	12 fl oz
4" x 8" x 3" Door Stop	7 cups	18 fl oz
8" Round	5 cups	12 fl oz
8" Square	7 cups	18 fl oz
8 1/2" Butterfly	9 cups	22 fl oz
9" Heart	7 cups	18 fl oz
12" Round	12 cups	28 fl oz
12" Square	16 cups	40 fl oz
12" Hexagon	12 cups	28 fl oz
14" Round	16 cups	40 fl oz
14" Heart	24 cups	54 fl oz
2' Tree Ring (6 make circle)	10 cups	24 fl oz
16" Rectangle	10 cups	24 fl oz
16" Triangle	8 cups	20 fl oz
16" Square	27 cups	68 fl oz
16" Hexagon	24 cups	60 fl oz
18" Round	38 cups	88 fl oz
18" Moonstone	27 cups	68 fl oz
20" Address Stone	33 cups	78 fl oz

Tips and Techniques

Quick Measurements For Any Size Mold

Have a mold not listed on the chart? Count the number of cups of water needed to fill the mold. Multiply this number by 1.4, to achieve the amount of cement in cups needed to make the stone. Refer to the chart to determine the amount of water needed for the corresponding amount of cement.

Custom Colored Cement

With Jennifer's Mosaics™ Outdoor Cement, you can leave the stones an attractive white or customize them to the exact shade you desire. Color cement with COLORANTS™. Refer to chart below and add COLORANTS™ to water.

<u>Color Intensity</u>	<u>Measurement</u>
Low	½ tsp. per 10 oz. water
Medium	1 tsp. per 10 oz. water
High	2 tsp. per 10 oz. water

THERE ARE APPROXIMATELY 27 CUPS OF OUTDOOR CEMENT IN A 20 LB BOX

SAFETY PRECAUTIONS:

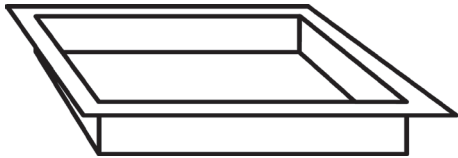

It is recommended to wear safety glasses and dust mask when mixing cement. Dust can cause irritation to the eyes, nose, skin or respiratory system. If skin contact occurs, wash thoroughly with water. If irritation persists, consult a physician. If eye contact occurs, flush thoroughly with water to remove particles. If irritation persists, consult a physician. Keep out of the reach of children. Wear rubber gloves and avoid contact with the skin. Do not attempt to make a cast enclosing part of the body using this material. Do not take internally. If ingested, call a physician immediately.

CAUTION: This product contains crystalline silica sand which is known in the State of California to cause health issues.

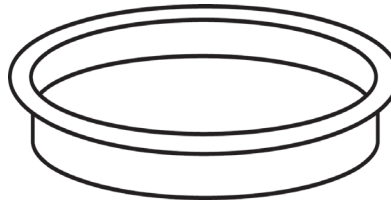

Try These Stepping Stone Molds

From Jennifer's Mosaics™

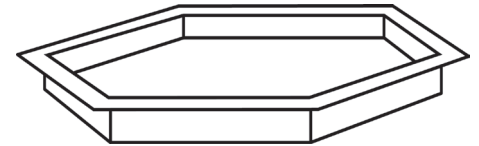

Made of superior strength, high quality, high gloss ABS plastic.
Molds feature a 7° relief and rounded corners for better release.

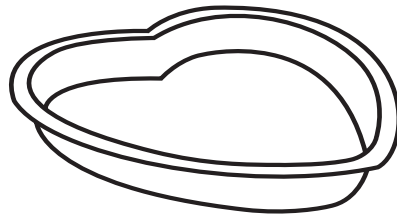

8" Square #109
12" Square #379
16" Square #107

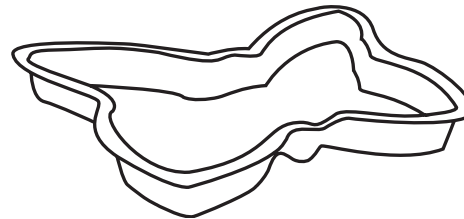

8" Round #111
12" Round #443
14" Round #106

12" Hexagon #378
16" Hexagon #110

14" Heart #586
