HUES 2 FUSE™

Dispense several drops of Glass Media

Add color powder

Blend

Create and Fire!

Use HUES 2 FUSE to decorate cabochons prior to firing as usual

New from Creative Paradise, Inc., HUES 2 FUSE, concentrated non-toxic pigments that can be blended with media to create rich colors to kiln fire on glass.

Product line includes:

- 18 vibrant colors / 28 grams
- 806118 - Textured Black / 1 oz
- 806119 - Textured White / 1 oz
- 806120 - Glass Media / 2 oz

Available individually or in convenient kits:

- 80699 - Starter Kit
- or 80698 - Complete Color Kit

To Create an enameled effect on bottles, apply blended HUES 2 FUSE to wine bottles before sagging.

Use stamps and blended HUES 2 FUSE to fusible glass before fusing for creative effects

To create these Quilt Block Tiles Sift HUES 2 FUSE onto stencil over single layer of COE 96 or 90 white glass. Carefully remove stencil and fire at 325 degrees per hour to 1450 degrees and hold 10 minutes.

Quilt Block Tiles by Phil Gegen-Wichita, KS

HUES 2 FUSE can be applied over dark glass and selectively scratched away before firing to create an intriguing antiqued scraffitto tile.
