Powder enamels can be applied to glass multiple ways to achieve different effects.

Consider: Sifting enamel onto projects

Using stencils

Painting with enamel by mixing with Klyr Fire #7405A1

Writing or drawing on glass by mixing with Liquid Stringer Medium #40900 and clear fine powdered frit to dispense through an applicator bottle.

Important: For your protection, wear an appropriate particulate mask such as Respirator #5159 when handling powders.
