

#80690 Small 4-1/2" Stand-Up Mold Template

Create glass figure to fit inside the above diagram with legs in indicated areas. Fuse glass first, according to your own artistic preferences. Apply glass separator to Stand-Up mold according to manufacturer's instructions. Place fused glass figure on mold in kiln and slump/drape at 350 degrees/hour to 1175 and hold for 5 minutes.

Based on printer enlarge/shrink template size as needed to match measurements listed. Instructions courtesy Creative Paradise.
