

Water Lily Fan Lamp

◀ Optional break line
(if you choose not to include the break line,
a band saw is helpful in cutting this piece)

Solder these petals to the back
of the flower as shown above.

Cut these border strips once as shown, and once with the pattern flipped upside down.
Solder to the edges of the fan lamp as shown above. (We tilted our border strips back slightly.)

Glass for Water Lily Fan Lamp:
1/2 square foot each for flower, background and borders
