

## Fused Snowman Stake

Enlarge pattern as desired.

For garden stake #40220 base circle should be approximately 8-1/2" diameter.

Select all glass in 90 or 96 COE.  
Sprinkle powder or fine frit in color of your choice to create cheeks if desired.

Cut "carrot" nose. Details can be added with Glassline Pens if desired.

Use glass nippers to cut "coal" eyes, brows and mouth. This technique is fast, easy, and results in a desirable organic look.

Sprinkle clear fine frit over entire base glass before positioning cut glass for an icy look.

Fire to a tack fuse.
