Mosaic Trivets

Make a gift that will get used and enjoyed all the time with a beautiful and functional trivet.

Project shown by artist Kayleigh McGrath.

Materials:

4" Square Trivet with Round Frame #612735

Weldbond Adhesive #65101

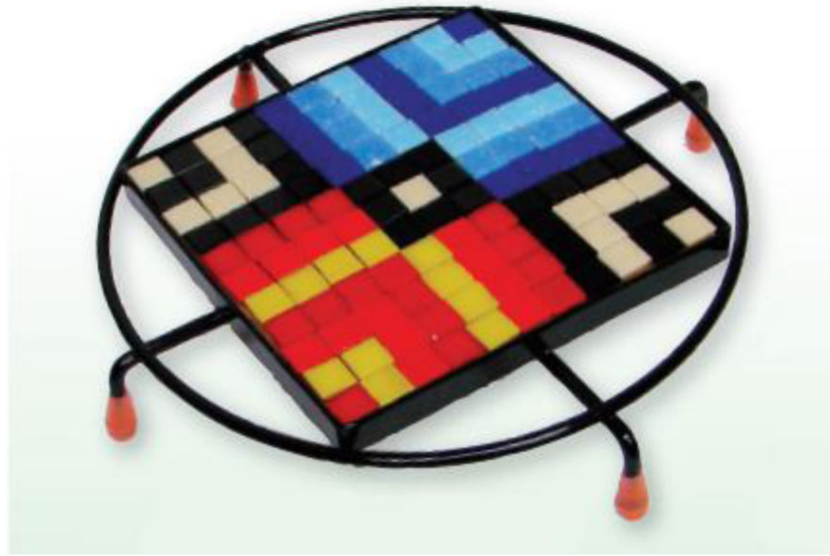

(Optional) White Grout #425580 and Grout

Colorant #2203

Glass or Tiles of your choice

Shown Here: 3/8" Glass Tile Mixes #425251 Denim, #425254 Red Hots and #425255

Carnival

Instructions:

1. Plan a design and sketch it out on the wood base using a pencil
2. Lay out tiles or cut glass for pattern and lay out the pieces to follow the pattern
3. Apply Weldbond Adhesive to the wood base
4. Position tiles or glass pieces according to pattern on the wood base and use a flat surface to press gently to ensure pieces are level for a smooth surface
5. Allow to dry completely
6. (optional) Mix grout following manufacturer instructions, adding colorant as desired.
7. Apply grout, filling spaces between pieces evenly to create a smooth, level surface. Allow to dry partially before proceeding to next step.
8. Clean excess grout from glass or tiles with a dry or slightly dampened sponge or durable cloth, buffing cloudy film from glass surfaces. Delphi Tip: take care not to scrub grout from between pieces by applying too much pressure or using an over-wet cloth

Additional Ideas:

☑ Use Clear Crafting Tiles and KraftyBlok Image Art to make your own custom design tiles as shown at right. Project by artist
