

Painted Bottle Art

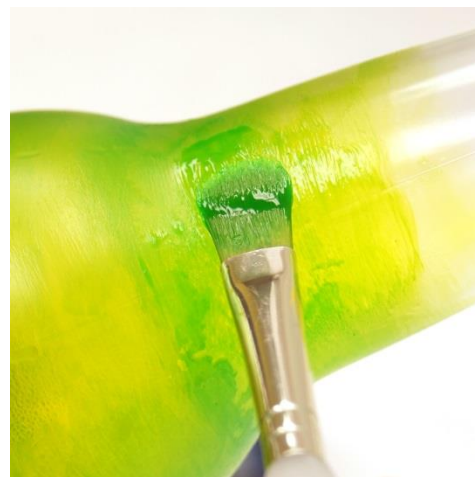

Materials:

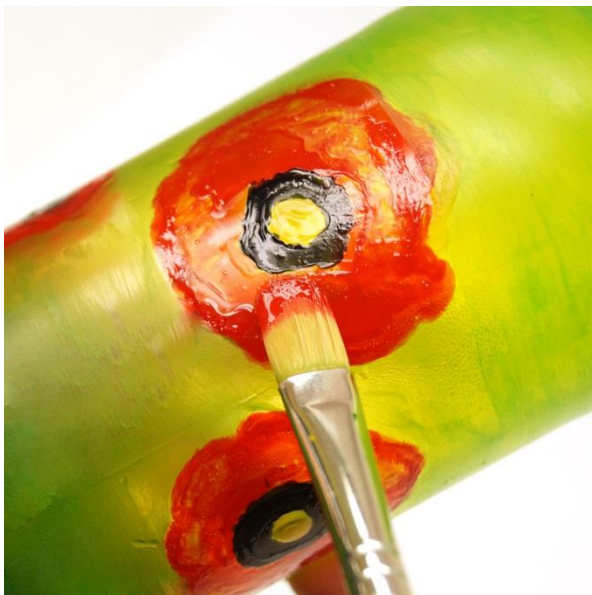

Vitra Frosted Paint Set (Item #64261)
Bottle Candelabra (Item # 13060)
Medium size paint brush
Clear glass bottle

Instructions:

1. Select paint color and with a medium size brush, apply the outer portion of the flower to the glass bottle. Try dabbing the brush for a more creative look, leaving an open space for the center of the flower. Fill with different color and let dry.
2. With a lighter color paint the entire bottle, making sure not to paint over the flowers.

3. Touch up flowers as needed. Allow drying time for multiple layers of paint.

4. Next choose a dark green. Using up and down motions with the wrist, paint a grassy area around the lower base of the bottle. When dry, go over the same area creating stems and leaves for added depth.

5. Allow bottle to dry completely before adding the candelabra or any other bottle topper art.
