

# GINGERBREAD COTTAGE NIGHT LIGHT

Artist: Julie Haan

Light up the night with this sweet little gingerbread cottage night light. From roof to doorway it is sure to add sparkle to the holiday season.

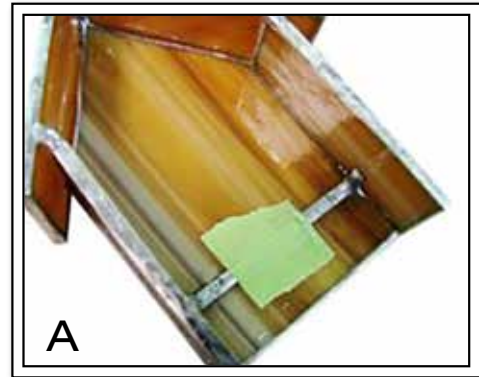

## What You Need

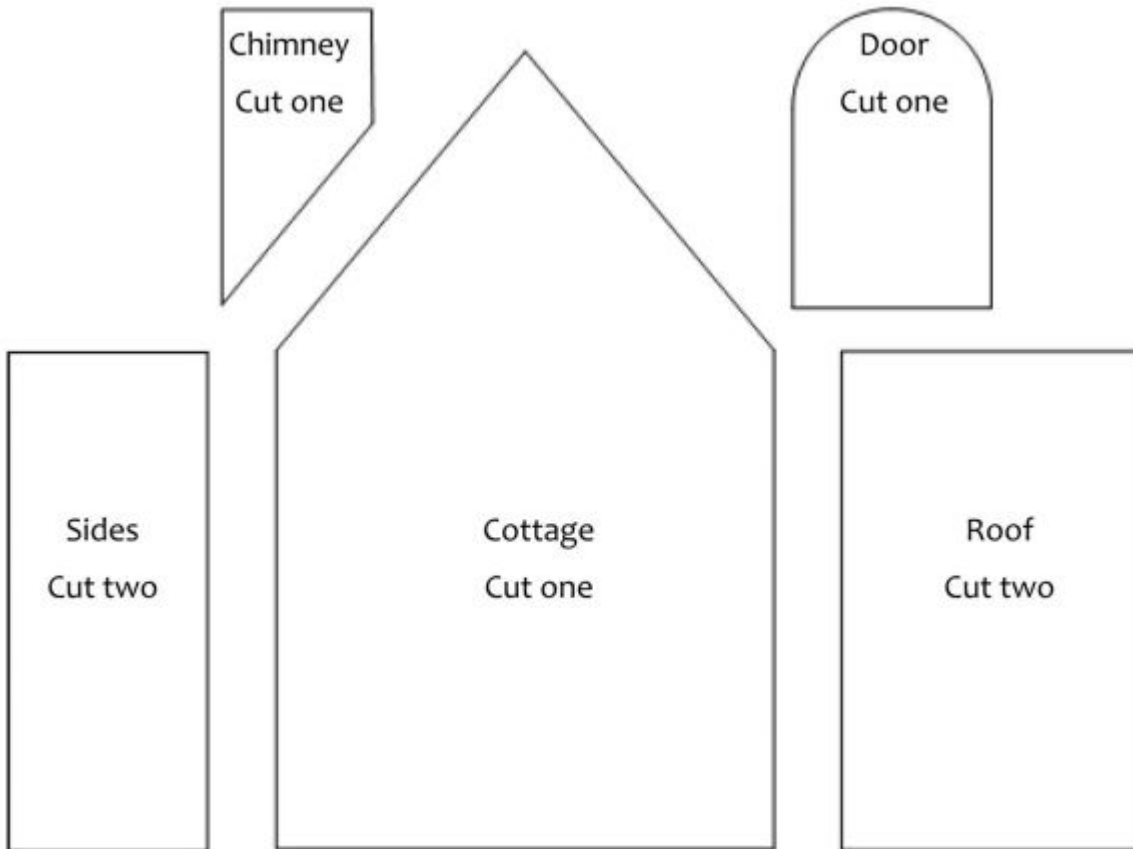

### Tools and Materials We Used:

- Medium Amber & White Opal Glass
  - Dark Amber/ White Wispy Glass
  - Dark Green & White Opal Glass
  - Red Glass Rod
  - Assortment Stringers
  - Millefiori
  - Clear Medium Grit Frit
  - E6000 Adhesive
  - Weldbond Adhesive
  - 5/32" Copper Foil
  - Copper Reinforcing Strip
  - Night Light Fixture and Clip
  - 60/40 Solder
  - Painters Tape
- To make this project as shown use the products listed above or use glass and any embellishments you may already have.

## Instructions:

1. Following pattern guide, cut out all cottage pieces.
2. Clean well. Foil and solder. Tip: Add a small dot of E-6000 to top back of cottage door to add strength.
3. Make decorative dots of solder along roof line, corners of cottage and chimney.
4. Cut two lengths of copper reinforcement strip 1/4" longer than house opening in the back. Bend ends to fit inside house. (A)
5. Tack solder copper strips together.
6. Set night light inside house and mark for placement of this copper strip. Hold in place with painters tape and solder.
7. Set night light inside house and mark for placement of this copper strip. Hold in place with painters tape and solder.
8. With flux cleaner, clean off all residue. Polish with finishing compound.
9. Embellish with glass chips, millefiori, stringer and rod in any way you like!
10. Apply Weldbond or white glue to roof top. Sprinkle with clear frit. Add more glue on top of frit if you would like to mound it.
11. Add additional frit to tops of windows, door etc.
12. Let dry 12 hours or until adhesive is set.
