

## Artful Mosaic Accents

Dress up your walls with customized art prints. From photographic prints to paintings, enhance basic prints with glass mosaic accents that add depth and beauty.

Project shown by artist Lanayia Shaw.

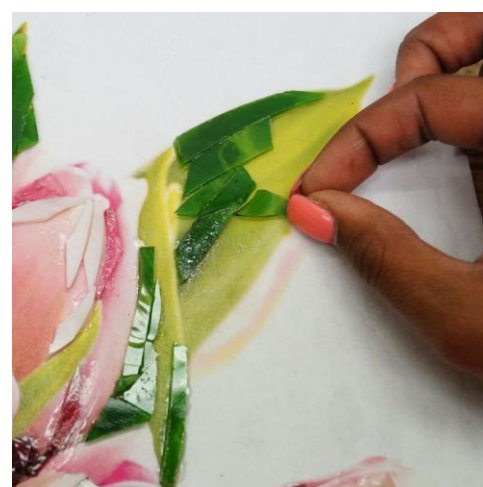

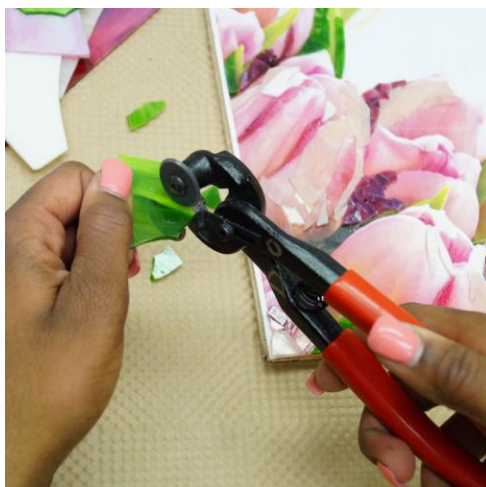

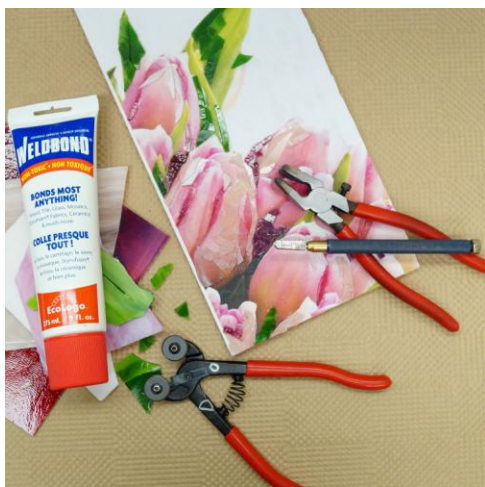

### Materials:

- Wheeled mosaic glass nippers
- Glass cutter and pliers
- Scrap glass, millefiori, dots, stringers or other glass accents
- Clear adhesive (Weldbond, E6000 or Silicone)
- Artwork to embellish

### Instructions:

1. Select an art print to embellish. Your print can be on wood, metal or canvas. If the print is a poster or printed image on paper, use Diamond Glaze, Weldbond or a decoupage medium to adhere it to a wood base. Allow it to dry completely.
2. Select scraps of glass, millefiori, dots, stringers or other accents to coordinate with your print.

3. Use a glass cutter and pliers to score and break any pieces you want deliberately shaped.
4. Break small organically shaped bits of glass with the glass nippers.
5. Glue glass onto the print.

Tip: Do not cover the entire print with glass. Add color and texture only to areas you want to highlight.

6. Allow adhesive to dry completely.
7. Frame your finished project as desired.
8. Hang your art.
