

# Autumn Leaves Jewelry

Created by artist Jennifer Bonesteel

## Materials:

Assorted cabochons in fall colors  
Autumn Leaves Color Decals (Item #9554)  
E-6000 Adhesive - 3 Pack (Item #8918)  
Paper  
Scissors  
Paper towel

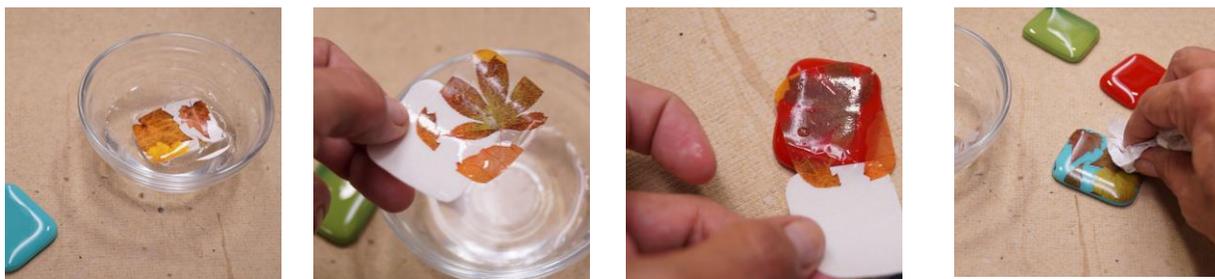

## Instructions:

1. Trace around your cabochon and cut a "window" the size of your cabochon out of the paper. This will help you to determine how much decal to cut.
2. Use the window to help you choose what part of the decal you'd like to use for your piece and then cut the decal to fit.
3. The Autumn Leaves Color Decals have a protective plastic layer that needs to be removed. Carefully peel up an edge and pull off the protective coating.

4. Repeat the process until decals are cut for all of the cabochons you have selected.
5. Place your decals in a shallow dish of water.
6. When you can see the decal separating from the paper pull it out and slide it carefully off the paper and onto your cabochon.
7. Gently blot the decal with paper towel - pressing the water from the center of the decal toward the edges.

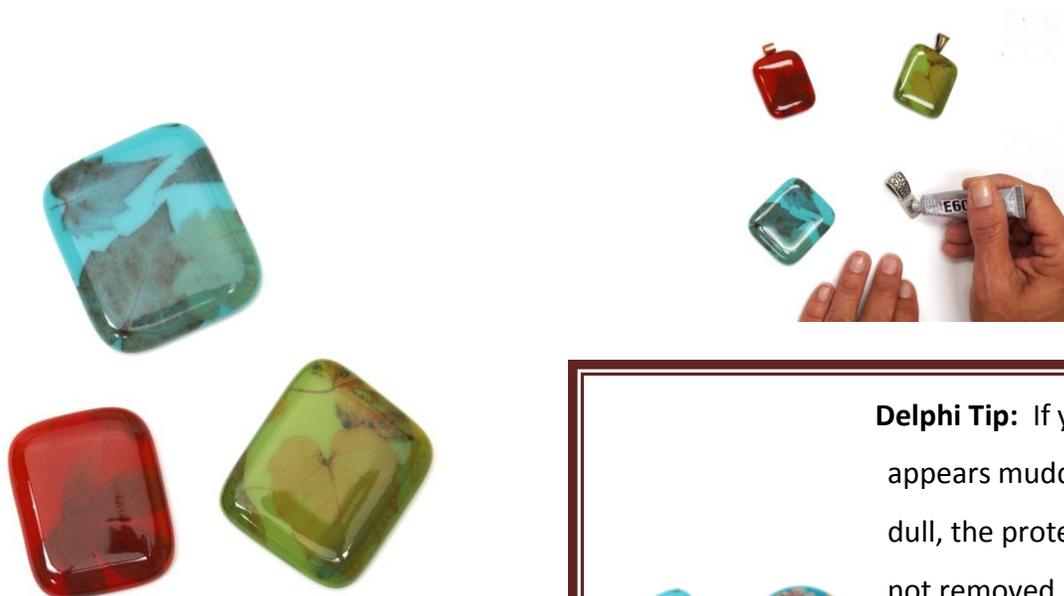

8. When the decal is positioned and all of the bubbles have been pressed out set aside and allow cabochons to dry thoroughly.

9. Fire according using the fusing schedule below.

Segment 1	300° per hour	1100° F	Hold 10 Minutes
Segment 2	300° per hour	1290° F	Hold 5 Minutes
Segment 3	Full	960° F	Hold 20 Minutes

10. Attach bails of your choice using E-6000 or other glass adhesive.

**Delphi Tip:** If your cabachon appears muddy, cracked or dull, the protective film was not removed before firing. Water remaining under the decal can cause similar results
